CLARA BOW

IN

### "True to the Navy"

— with —

Frederic March - Harry Green - Rex Bell

Hear Clara sing "There's Only One Who Matters," and she fights the navy for him. See how she gets that one. And Harry Green a riot in a real comedy role.

MATINEE AT 2 p.m., SATURDAY

Monday, Tuesday and Wednesday

The Dramatic Thriller of the Year!

### "The STORM"

WITH

Lupe Velez - William Boyd - Paul Cavanagh

Langdon McCormick's famous stage melodrama brought to the talking screen. Thrills and pulse-quickening drama, staged in the great outdoors of the North Woods, and bringing to the screen amazingly thrilling scenes of blizzards and avalanches.

COMING—December 18 - 19 - 20

RICHARD BARTHELMESS

IN

The greatest Air Romance the world has ever known

### "The Dawn Patrol"

Its Big! Its Thrilling! Thousands of planes in mortal combat miles above the ground.

#### BLAIRMORE SCHOOL BOARD SUPPORTS C.N.P. SPORTS

At the regular meeting of the Blaimore Board of School Trustees on Friday night last, a resolution was passed subscribing the sum of \$18 towards the 1931 district schools sports, being at the rate of \$1.50 per room. Accompanying the donation is the recommendation that the sports be held some time after the summer vacation, instead of before the holiday, as it was felt that sports held in the late spring had a tendency to seriously affect the progress of pupils in their studies for exams.

Tenders for school supplies were considered and contracts awarded.

A resolution was also passed, expressing regret at the continued illness of Mr. Tompkins, following an auto accident of some time ago. Mr. Tompkins is a very active member of the board and his absence from meetings is regretted.

A number of accounts were passed for payment.

#### FIRST AID DANCE

At the annual dance of the Blaimore First Aid association, which will be held tomorrow evening in the Moose hall, Blaimore, the draw will be made for the following prizes:

1st, value \$20.00, donated by Mrs. G. A. Vissac; 2nd, value \$10.00, donated by The Association; 3rd, value \$5.00, donated by The Association; 4th, 98-lb sack of Five Roses Flour, donated by F. T. Jones, Calgary; 5th, 10-lb turkey, donated by Ed. Royle; 6th, 2 fat chickens, donated by Raoul Green.

#### DEATH OF JENNIE SHERRING

Jennie Findlay Craig, eleven-year-old daughter of Mr. and Mrs. A. Sherring, of Frank, died on Sunday last, following a prolonged illness.

The remains were laid to rest in Hillcrest cemetery on Tuesday afternoon, following a service at the home.

Mr. and Mrs. Sherring desire through The Enterprise to thank the many kind friends for assistance offered and rendered during the illness of their daughter, particularly remembering the members of Turtle Mountain Lodge, K. of P., and the Pythian Sisters of Hillcrest, who were uniting in their efforts to do anything possible, and who in such large numbers attended the funeral.

#### NEW TRAIN SERVICE TO BECOME EFFECTIVE JAN. 1

Official announcement has been made of the new service on the Crows' Nest line of the Canadian Pacific Railway, which will go into effect the beginning of the year. On New Year's Day, the new rail link around the Kootenay Lakes, connecting Kootenay Landing and Procter, doing away with the boat service, will go into effect.

Trains No. 67 and No. 68, which have served the Medicine Hat-Kootenay Landing district for a great many years will be cancelled at the end of the year, and with the beginning of the new year will be succeeded by trains No. 11 and No. 12 respectively, running between Medicine Hat and Vancouver.

Train No. 11, replacing No. 67, will leave Medicine Hat daily at 2:30 a.m. after meeting No. 3, westbound main line train. No. 67 will reach Lethbridge at 6 a.m., leaving at 6:40 a.m., and proceeding to Vancouver via Coquit, Nest, Nelson and the Kettle Valley Railway.

Train No. 12, replacing No. 68, eastbound, will leave Vancouver at 7:20 p.m., arrive Nelson at 10:45 p.m. the following day. It will remain overnight at Nelson, and proceed east at 9:45 a.m., arriving Crows' Nest at 8:55 p.m. It will arrive at Lethbridge at 2:10 a.m., leaving at 3:00 a.m., arriving at Medicine Hat at 6:30 a.m., to connect with No. 2 eastbound.

#### RE-BUILDING OF C.N. PIER STARTED

Work on the re-building of the new Canadian National pier at Vancouver, which was destroyed by fire last August, was commenced last week. This work will be rushed along as fast as possible and it is probable that the new pier will be ready for operation early in June.

The Northern Construction Company are the general contractors for the work, but the Canadian National engineering staff will be in charge. Major W. G. Swan, has been retained in the capacity of consulting engineer.

The feature of the new type of construction will be the special process of fire-proofing, to which all wood-work will be treated. In addition to this, two special fire walls will be constructed across the entire width of the shed. Below the flooring will be a series of fire curtains which will be built from the bottom of the floor to some distance below the water.

A. A. Lytle, representing the British and Foreign Bible Society, was a visitor to Coleman and Blaimore this week. On Tuesday night he delivered an address at Coleman and last night here, his addresses being illustrated by lantern slides, showing some of the territories covered by the society and giving some idea of the character of the work being accomplished. Mr. Lytle will be remembered by many in the district, having a number of years ago had charge of Methodist church work at Pincher Creek.

## WORLD HAPPENINGS BRIEFLY TOLD

"Tootsie," claimed by her owners to be the "world's oldest cat," is dead at Winnipeg. She was 23 years old. There are no survivors.

The net value of Britain's national wealth is now \$90,225,000,000 according to the Josiah Stamp, noted economist, who in 1914 put the figures at \$71,550,000,000.

The total estimated wealth of the prairie provinces is \$7,380,000,000, according to a statistical analysis issued by the industrial development board of Manitoba. This is 25.51 of the Canadian total.

The United States and France are shown by the bulletin of the Federal Reserve for November to control the world's supply of gold. Together the two countries hold about 60 per cent. of all yellow metal.

Defending his country's policy in India, Sir Ronald Lindsay, as guest of honor at a dinner in New York called the relations between Great Britain and India the most pacific in their history.

Juvenile immigration into Canada will be limited to actual demands, it was decided at a conference attended by federal and provincial government representatives and those of interested societies.

The Royal College of Physicians and Surgeons of Canada, organized a year ago, now has a constitution, set of by-laws and a code of ethics, all of which have been ratified by the fellows of the college.

A hotel is to be opened in Ottawa by the Canadian Legion to provide shelter for veterans of the Great War now in poor circumstances. It will have 50 to 100 beds and a free lunch counter.

Eighty-eight years of age, "Jerry" Robinson, one of Winnipeg's most noted pioneers and business men, died at his home, following an illness of only two days. He succumbed to an attack of pneumonia.

Vice-Admiral Sir Arthur Kipling Walcott, present commander-in-chief of the China station, has been appointed to succeed Admiral of the Fleet, Sir Roger Keyes, as commander-in-chief at Portsmouth.

Prince George Bibesco, of Rumania, was elected president of the International Aeronautic Federation, succeeding the Count de Vaux, who was killed in an aeroplane accident in the United States last fall.

Germany has made a demand before the preparatory disarmament commission that a general disarmament conference be called for September 2, 1931. No discussion on the suggestion took place.

The location of 60 families on 14,000 acres of good land between Merville and Oyster River on Vancouver Island, one of the biggest land settlement projects ever undertaken in British Columbia, is under consideration by the C.P.R.

Between 10 and 15 per cent. of northern Saskatchewan's wheat is still unthreshed, according to a report issued by the soldier settlement board at Prince Albert. Thousands of acres of grain will remain under snow till spring.

Liner Stopped To Aid Islander  
As the liner "Tonic" was passing lonely Pitcairn Isle, in the Pacific, it received an appeal for help for a man dying from lockjaw. The liner was stopped, and the ship surgeon was taken ashore in a small boat. He treated the man, who rallied, and gave the islanders instructions as to nursing and treatment before returning to the liner.

Tree Seed Planted From Air  
The forestry department of Hawaii has been engaged this season in planting tree seed by aeroplane. A U.S. army plane was used on the job. It was down over a large eroded area and 1,689 pounds of seeds were dropped from an elevation of 2,000 feet. Mixed seed was used.

Wine red canton crepe with egg-shell fallie crepe and black crepe maroon with white are modish for all-day wear.

There are also lovely vivid blues, greens and brown tweeds. A charming chic tailleur—lovely and smart as paint—to be carried out in Bordeaux red tweed mixture in monotone effect, is today's model.

The right side of the plique cross-over vest is passed through a slot, terminating in a scarf end.

The triangular pockets lend a sportive air. At either side of the front of the skirt, inverted plaits provide the necessary width and flare to the hem.

Wine red canton crepe with egg-shell fallie crepe and black crepe maroon with white are modish for all-day wear.

This pattern may be obtained in sizes 16 to 20 and 36 to 42. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

## Canada's Fishing Grounds

Most Extensive In World and Yield Is Exceptional in Variety

"The Dominion's fishing grounds, both sea and inland, are perhaps the most extensive in the world and they yield food fishes in exceptional variety. Of prime natural quality, these fish are marketed in numerous different forms—fresh, frozen, canned, dried, smoked, etc.—by an industry whose processing methods have kept pace with the most approved fisheries practices. As a result, fresh or prepared fish of the first quality are always available to the Canadian consumer. It is also to be said that in many cases fish foods are cheaper than other food products."

As indicating the importance of the fishing industry to the country, a statement of the Department of Fisheries points out that the industry represents an investment of some \$62,000,000, and is the direct source of livelihood for some 80,000 Canadians and their dependents as well as an indirect source of employment for a large number of workers in various industries in all parts of the Dominion. Annual fisheries production now runs between fifty and fifty-five million dollars and the fisheries add approximately \$36,000,000 to the country's export trade every year. The fisheries resources, however, are capable of much further development and increasing popular attention to their exploitation on sound lines must make the fishing industry a still greater contributor to the economic strength of the Dominion.

Above are shown three noted medical men, who attended the annual meeting of the Canadian national committee for mental hygiene in Toronto. (1) Dr. A. H. Desloges, general director of hospitals for insane in province of Quebec. (2) Dr. A. Grant Fleming, professor of preventive medicine and public health at McGill University, who has been appointed medical director of hygiene council to succeed Dr. C. Hincks, and (3) Prof. J. M. MacEachran, director of department of philosophy at Alberta, Edmonton.

## About Tuberculosis

Educational Plan To Combat Disease Waged In All Parts Of The Dominion

Great encouragement has been given in the last ten years to those people who believe that much of our disease can be prevented.

Every doctor and almost every enlightened layman holds this belief and the encouragement which the last ten years has brought to these people is evident in the success which is crowning the efforts of these people who are fighting that dread destroyer, Tuberculosis.

The death from all forms of Tuberculosis has dropped about one per hundred thousand population per year or from 80 to 80 in ten years. During the same interval the sanatorium treatment beds have increased from 4,000 to 7,000.

It is interesting to note how this has been accomplished. Canadians are fortunate in having an excellent organization working on their behalf in this regard—the Canadian Tuberculosis Association, which organization has for years been in the very forefront of the battle against this disease.

They have carried the warning against tuberculosis right to the minds of the general public. They have waged an education campaign against it in all parts of the Dominion. But they have done more than merely to warn and to alarm. They have been responsible for many cures and for a very great deal of prevention.

One of the most interesting phases as well as the most needed of their work is the branch which is devoted to studies by physical medical examination. People in whole districts are frequently examined for signs of incipient tuberculosis and many cases are found of people who are afflicted with tuberculosis in its incipency.

Since the disease at this stage is almost certainly and permanently curable the Association is thus responsible for the saving of many lives and the prevention of much misery.

In this connection the Annual Christmas Sale should be mentioned. This sale which receives the support of all classes of citizen serves a valuable and two-fold purpose. First of course it raises money. This is used for local committees to maintain diagnostic and home visiting nursing services. Secondly the annual educational campaign of the Christmas Sale gives the public much needed information about the work and the need for the work.

"The type of citizen who buys Christmas Scales" is an official of the organization recently said, "is not the kind to let his brother down."

## Fostering Home Industry

Saskatchewan Caught Fish To Be Used In Provincial Institutions

With a view to fostering the fishing industry in the northern part of the province, the government is substituting Saskatchewan-caught whitefish for the British Columbia product, formerly used in the mental hospital at Weyburn, the industrial school, Regina, and the old folks home, Woleseley.

The government has also written to the secretary of the Anti-Tuberculosis league suggesting the introduction of the Saskatchewan-caught whitefish in the sanatoria at Port Qu'Appelle, Prince Albert and Saskatoon.

Ranches Change Hands  
Ranch lands totalling 60,000 acres in southeastern Alberta have recently changed hands in exchange for Seattle, Washington, property, the amount involved being reported as \$1,500,000. The ranches were formerly known as the "76" or "Jim Langley" ranch. The new owners intend stocking the land with pure-bred cattle and polo ponies.

Teacher: "Name some of the most important things existing today, which were not known one hundred years ago."  
Pupil: "You and me!"

## NOTED MEDICAL MEN

## The Spirit Of The Red Cross

What the Junior Red Cross Is Trying To Accomplish For Peace

When the great conference of the world's Red Cross Societies met in London, England, with the Duke of York as Chairman, they saw at the Scala Theatre, by means of a play what the Junior Red Cross is trying to do in the world for peace, health, and happiness.

In the words of the Spirit of Red Cross the trinity of aims was well expressed as follows:

I am the Red Cross; who am known of all men  
To be merciful and compassionate.  
And of my fellowship are such as would  
To be the sick and the suffering.

Many there be of my servants who have won  
To Honour and Renown.  
But for the most part their reward lies hidden  
In the hearts of men.  
And now call I the children to be of my company,  
For they, too, can be helpers.  
Following after their fashion in my footsteps  
And weaving the threefold thread of Health, Relief and Friendship.

## Bar Convict Labor Goods

United States Takes Action To Prevent Importation Of This Nature

The treasury promulgated regulations against the importation of convict-made goods, while a witness was telling the House Committee investigating committee how prisoners fare in Soviet camps.

The regulations require importers and shippers to show that imports from all countries are not produced by convict labor.

Russian goods have figured in several recent hearings at which the treasury was asked to bar certain products, but in announcing the regulations, Assistant Secretary Lowman said they were "not directed against Russia, but against everybody." They were issued under a law which required importers to post bond and submit a certificate of origin showing unpaid convicts did not manufacture the articles.

Many more buildings are being erected in Jamaica than a year ago.

## SUNDAY SCHOOL LESSON DECEMBER 14

SAUL OF TARSUS—HOW A PHARISEE BECAME A CHRISTIAN

Golden Text: "I count all things to be loss for the excellency of the knowledge of Christ Jesus my Lord: for whom I suffered the loss of all things, and he began by declaring that he was a Jew through and through, born in Tarsus of Cilicia but educated in Jerusalem, having been taught by the great Rabbi Gamaliel 'according to the strict law of our fathers,' and that he was zealous for God as they all now were."

Lesson: Acts 22:1-15.  
Devotional Reading: Isaiah 61:1-8.

## Explanations and Comments

Paul's Birthplace and Education, verse 3.—Paul had been charged with being an enemy of the Jews and that, and he began by declaring that he was a Jew through and through, born in Tarsus of Cilicia but educated in Jerusalem, having been taught by the great Rabbi Gamaliel 'according to the strict law of our fathers,' and that he was zealous for God as they all now were."

The Arrested Arrested, verses 6-9.—In his zeal Paul had persecuted those of the "Way," he told the mob in Jerusalem, binding and sending men and women to prison. The high priests and elders could bear witness that he had received letters giving him authority to make arrests, and armed with these he had started for Damascus that he might bring back to Jerusalem for punishment the followers of Christ whom he might find there.

Paul was very near Damascus, after a long journey of one hundred and fifty miles, when suddenly at noon an extraordinary light shone about him, and he fell to the ground.

Voice and answer followed. "Saul, Saul, why persecutest thou Me?" "Who art Thou, Lord?" "I am Jesus of Nazareth, whom thou persecutest." Instant obedience, verses 10, 11.—"What shall I do, Lord?" was Paul's humble question. He believed in Christ. He had instantly turned from a persecutor to a follower, and given himself to his new Master's service. To know that Christ would have him become thereafter the one desire of his heart; for he was the bond-servant of Christ; to him to live was Christ.

"Arise, and go into Damascus," was the answer. There he would learn what he was to do. The glory of the light had blinded him, and he was led by the hand like a little child.

Commissioned, verses 12-15.—There in Damascus Ananias, a devout and highly esteemed man, came to Paul and called him Brother. "Brother Saul," he said, "receive thy sight." And Paul looked up and saw him. It was God who had given him this vision and message, Ananias told him, and he was to be a witness for Christ unto all men.

An Ice Cream Tree  
One tree in the green-house of Mrs. M. A. Hora at Memphis, Tenn., is very popular with the children. It bears a fruit that "tastes like strawberry ice cream and looks like corn." It takes the ears 18 months to ripen, according to Mrs. Hora, who got the tree from St. Louis florist six years ago. The kernels are soft and mushy and very rich.

Done By Advertising  
The will of the late Honorable P. C. Larkin, amounted to \$3,500,000 the bulk of which was left to his family. As Mr. Larkin started as a tea merchant in a very humble way, his success is a striking example of what can be achieved by energy, enterprise and advertising. From practical obscurity he left a name that is known throughout the entire world.

## May Tax U. S. Publications

Federal Government Likely To Impose Some Form Of Duty

The Montreal Gazette published the following dispatch from Ottawa. "A determined effort to lessen what amounts to unfair competition for Canadian manufacturers is almost certain to be made by the present government in its revision of the tariff for the coming session, by imposing some form of duty against periodicals entering Canada and bearing a large amount of advertising of foreign-made goods. Such a blow would be aimed at large weekly publications from the United States, and it is expected that the duty will be imposed on a percentage basis and that the publishers will be required to furnish advance copies of their publications to the department of national revenue for purpose of appraisal."

## Bounty Aids Butter Import

Reason Australia Can Compete With Canadian Produce Says Caulder

The reason Australian butter can compete on the Canadian market is because there is a bounty of about nine cents on every pound exported, thus giving the Australian exporter leeway in price-cutting, according to J. A. Caulder, former president of the National Dairy Council of Canada.

Mr. Caulder pointed out that for every four pounds of butter produced in Australia, one pound was for export.

The speaker pointed out that 60 per cent. of the Canadian West was suitable for dairy production, and he strongly recommended introduction of more mixed farms in the West to overcome the present wheat depression.

## Plotting Against Soviets

Reports State Leon Trotsky Is Directing Operations

Despatches to the Telegraph Union from Kovno, Lithuania, recently said the OGPU (Soviet secret police), had discovered an elaborate plot by anti-Communist factions in South Russia with headquarters at Taganrog.

The report said the plotters were acting under the direct advice of the exiled Leon Trotsky, who was reported to be at Istanbul, with the object of overthrowing the Stalin government.

## Solid Witnesses

The practice of establishing concrete monuments—known as fundamental bench marks—by the Geodetic Survey of Canada, Department of the Interior, in the course of its work in taking the elevation of the country above sea-level was inaugurated in 1925.

## New Winnipeg Industry

A new industry has come to Winnipeg from International Falls, Minnesota, and Reichert Auto Body Work having purchased a building for the establishment of their business.

# Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

## WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, allows the full sunlight to enter, excludes the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass, keeps out cold and wet, but, changes in temperature.

allows the full sunlight to enter, excluding the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

CHAPTER VII.—Continued.

"You shouldn't feel that way!" he went on after a thoughtful moment. "There's nothing in the least crude about you; but sometimes, dear, you're not so—so friendly with folks as I am. Perhaps you're bashful, but I've sometimes thought you'd be misunderstood by strangers. Tonight, you know—really you weren't especially cordial, Gay."

"Was I—impolite?"

Her voice trembled, and Nick said quickly: "Lord, no! But I couldn't help wishing you'd act more—well the way you act with me."

A queer little smile crossed Gay's face.

"The lady might be surprised," Nick, if I held her hand, or anything like that."

She expected a laugh, but he seemed not to have heard. He sat quite still, watching the shadows cast by the street light across the way. An automobile passed by, going too rapidly, but he took no notice. Two lovers strolled along the sidewalk, fringing the night to their enraptured arms, and, un-Nick-like, Nick made no comment. He seemed suddenly far away, and Gay moved close again to rest her cheek against his arm.

"It's a ripping night," said Nick. He drew a deep breath—almost a sigh. "I'd like to start right now and walk till sunrise."

Gay's cheek pressed closer.

"I sometimes feel that way, too, Nick; and then I wonder if ever we'll do such things again. I can't of course; but there's no reason in the world why you shouldn't, you dear vagabond."

Nick smiled.

"The kids are a pretty substantial reason, seems to me, not to mention the bank!" A fine day's work, I'd do tomorrow if I tramped all night! He arose reluctantly. "Come, dear, we must go up to bed. You're tired. Who was it told us that two babies were no more work than two?"

Whoever it was—she was a cheerful lar. I—Hark! He sat down suddenly and laid a detaining hand upon her arm. "There's Mrs. Halliday at the piano. She sings like a bird. Let's listen."

It was next day that Mary Maxwell made her call. She gave her report that evening, when she and John sat contentedly rocking on their comfortable screened porch.

"It was hot as summer at four o'clock, Johnny," she began, "so I wore my lilac voile, and carried a sunshade, the fluffiest one Tom sent me for Judy's graduation. I looked real 'nifty,' as Tom, Jr. would say, and up-to-date. I feel sure there was nothing in my appearance for Mrs. Halliday to criticize."

"I'd like to see her try!"

John's tone was belligerent, and Mary laughed.

"I got my first shock when the door was opened," she continued. "Who do you suppose opened it?"

"St. Peter!" suggested her husband hopefully; but Mary was much too interested in her subject to notice this frivolous rejoinder.

"Julie Nipper! She's there permanently, and Mrs. Halliday's got her all rigged up in a cap and apron. I should have thought she'd roast!"

"If you refer to Julie, and she wore only a cap and apron," began the listener, when his wife cut in: "John"

## Prevent Dandruff

and promote the growth of your hair by rubbing the scalp with Minard's four times a week.

W. H. U. 1927

## DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a belching, from sour and acid stomach? Many believe they have heart trouble and trouble with indigestion, but it may be due to a simple condition that can be prevented, likewise relieved.

Take Carter's Little Liver Pills after meals and neutralize the acids. Sweeten the sour and acid stomach, relieve the gas and encourage digestion. The stomach, liver and bowels will be cleansed of poison, painful and dangerous indigestion disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for a 25c box of Carter's Little Liver Pills.

and what made you sorry for Mr. Halliday?

"Well, I can hardly explain it; but once he was introduced she almost ignored him; though in justice to her I'll admit that he didn't seem to care, and he kept looking at her in a perfectly maddening way, as much as to say, 'What new pose is this, I should like to know.' He did not at leave us once, but just then Julie appeared with a tea wagon—"

"Did she ask Julie to pour tea?" queried John Maxwell innocently.

His wife threw him a withering glance; then she shook with merriment.

"It was a joke on me, John, but for just a second I thought it was a baby carriage! I didn't think they had children, but—"

"They haven't, Nick tells me that children would interfere with their careers."

(To Be Continued.)

## Exploring With Motor Car

Detour Is Sometimes Amusing When Strange Roads Beckon

The motorcar hums merrily along a new cement road. There are no cracks no washboard ripples; there is almost the sensation of flight. On each side garish solicitations invite you to buy things varied and sundry. Small roadside merchants urge you to tarry.

Of a sudden, on rounding a long curve, there comes into view a little road that noses into the great cement thoroughfare like a nondescript little dog into pedigreed kennels.

A stone wall straggles along its sides and trees form a canopy over the roughened tread. Something whispers and you give the wheel a sudden turn. The car bumps along at a more sedate pace. The road turns and twists up hill, down a valley beside a chuckling brook. Around a sharp bend appears a weather-beaten old house topped by a great square chimney and shadowed by a great rambling barn whose doors are slightly ajar on wings. Chickens scurry out of your way and cows look solemnly on from the bars.

You catch the twinkling of tanned legs as a hooded boy runs out goggle-eyed to see you pass. The appearance of an automobile is something of an event on this road.

Like old days. You smile. A word comes from the back seat. "John, where in the world are you going?" You don't know, but you don't say so.

A branch road beckons from the right narrower, more rocky than the first. A pile of rubbish along there is another. You make turns very nifty. No signs. Where will you end up?

Miles pile up; also dust on the glossy surface of the car. The back seat grows increasingly articulate. But it is your party. You are having a glorious time.

You coast down a long tortuous hill till a warning blast jams your foot on the brake. Lines of cars flash by like an old-time motion picture and a little snail you join the procession and roll along smoothly with silence at the rear, a smile on your face and memories in your heart. You have been an explorer for an hour.

## Tracing Migratory Birds

Much valuable information concerning Canada's birds is being secured through the co-operation of the National Parks of Canada, Department of the Interior, Ottawa, with the United States Biological Survey. Year in, year out, migrations of birds are traced and recorded by means of placing dated bands on the legs of the birds. Nearly all the field work in connection with this is done by voluntary co-operators.

## Those Good Old Days

Bringing up children has certainly become more complex with the onward march of civilization and it doesn't so many years ago that practically the only worry a mother had was to keep the children away from the horses' heels.

Hull, England, with a population of 360,000, is just substituting electricity for gas for street lighting.

## Death Of Capt. Sverdrup

Famous Norwegian Arctic Explorer Dies At His Home In Norway

Canada had a very particular interest in Captain Otto Sverdrup, the famous Norwegian explorer who died at Oslo, Norway, Tuesday.

It was quite recently that the Dominion Government announced the payment of \$67,000 to Captain Sverdrup in recognition of services which he performed in the realm of scientific exploration. As his activities were largely in the northern islands of the Canadian archipelago, it was recognized that his discoveries and studies had been of peculiar benefit to Canada. The sum was also paid the Norwegian explorer as a consideration for the delivery to the Dominion of all original maps, records, diaries and other materials in his possession.

On behalf of the government of Canada, Sir George Percy, acting prime minister, has cabled to the British minister at Oslo, Norway, asking that he convey to the Norwegian Government Canada's regret at the death of Commander Sverdrup. In his cable, Sir George refers to Commander Sverdrup's "splendid services to Arctic exploration," which, he says, have long been recognized in Canada.

There are 250 of the animals in the Thelon sanctuary, while Mr. Hoare believes the greatest herd is on the Mackenzie where 4,000 have roamed today. He estimates about 1,000 musk-oxen in North and East Greenland.

R. M. Anderson, chief of the biological division of the National Museum in an appendix to the report, gives a higher estimate, stating Canadian herds total 12,900 animals and Greenland 1,500.

## Musk-Oxen in Northern Canada

Between Nine and Ten Thousands

Between 9,000 10,000 musk-oxen roam the northern islands and mainland of Canada, according to the estimate of W. H. B. Hoare, of the Department of the Interior, whose report on his examination of the Thelon game sanctuary east of Great Slave Lake has just been issued by the Northwest Territories and Yukon Branch. Mr. Hoare spent two years in the north, 1926 and 1928.

Canada and Greenland are the only countries in the world where the present musk-

**THE SPIRIT** of Christmas is in the air. The season of gay festivities is here again, bringing into the life of every man a deeper feeling for his fellow beings—a deeper regard for the finer things of life—a keener appreciation for the true full flavor found only in fine beverages.

CALGARY BREWING & MALTING CO., LTD.

#### NO AMERICAN COAL FOR MANITOBA PRO-VINCIAL BUILDING

For the first time in the history of Manitoba, all coal burned in Provincial Government buildings will come from mines in Western Canada. Contracts were recently let for 29,500 tons costing in the aggregate \$152,625. As set out by Hon. W. R. Clubb, minister of public works, not one ton of American coal will be used.

Contracts have been awarded as follows:

McCracken Bros., Ltd., 1,500 tons of minehead slack at \$5.50 per ton, and the Arctic Ice and Fuel company, 5,000 tons of Byron Creek colliery at \$6.55 for the central power house, which heats the Legislative buildings, the Law Courts and adjacent government buildings.

Halliday Bros., 1,000 tons of Byron Creek colliery at \$7.14 per ton, for the Manitoba School for the Deaf.

Truxa-Traxer Co., 1,000 tons of Souris Mine Run at \$3.75 per ton; the Williams Lumber and Fuel Co., 3,000 tons of Souris Mine Run at \$4 per ton; the Manitoba and Saskatchewan Coal Co., 3,500 tons of Souris Mine Run at \$4 per ton; the Souris Coal Distributors Co., 2,000 tons of Souris Mine Run at \$4 per ton, and Lane and Co., 600 tons of Drumheller Stove at \$6.55 per ton, for the hospital for mental diseases, Brandon.

Cumming and Dobbie Co., 150 tons of Byron Creek lump at \$10.45 per ton, for the provincial gaol, Brandon.

C. J. Sharp & Sons, 150 tons of Souris Mine Run at \$4.25 per ton for the provincial gaol, Portage la Prairie.

D. Swail Co., 50 tons of coal at \$5.70 per ton, and D. E. Adams Coal Co., 500 tons of Pembina lump at \$10.50 per ton, for the Training school for girls, West Kildonan.

C. J. Sharp & Sons, 2,500 tons of Souris Mine Run at \$4.10 per ton, and 500 tons of Truxa-Traxer Mine Run at \$3.90 per ton, for the Home for the aged and infirm, Portage la Prairie.

Gibb, McCall, & Ellwood, 1,000 tons of Byron Creek Mine Run at \$7.91 per ton for the Industrial Training

school. Manitoba and Saskatchewan Coal Co., 2,000 tons of Souris slack (Beinfait mine) at \$3.10 per ton; the Souris Coal Distributors Co., 1,000 tons of Souris slack at \$3.10 per ton; Halliday Bros., 4,000 tons of Byron Creek slack at \$6.61 per ton; and McCracken Bros., 1,000 tons of Jasper Mine slack at \$6.10 per ton, for the Hospital for Mental Disease, Selkirk.—The Coal Review.

Alex. Ross and W. F. McNeill, of the Workmen's Compensation Board, Edmonton, were in the district this week, taking up several cases in connection with compensation.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs., Dec. 11, 1930

The Kimberley Press remarks: We throw away ashes and buy soap. We raise dogs and buy hogs. We grow weeds and buy vegetables and brooms. We catch fish with a \$4 rod. We build school houses and send our children away from home to be educated. And at last we send our boys out with \$20 cash and a \$50 gun to hunt 25-cent game.

Blairmore Elks held their annual memorial service in their hall on Sunday afternoon last. Addresses were delivered by the chairman, Bro. R. W. H. Pinkney, P.E.R.; Rev. J. W. Smith, B.D.; and Bro. J. E. Gillis, B.A., P.E.R. Solos were rendered by Mrs. L. L. Morgan and Mrs. S. G. Rannan, vocal, and Roy Upton, violin, all accompanied by Miss M. Chardon, piano.

R. Bruce Baxter, up until the present connected with the Alberta Telephone, has been appointed general manager of the Montreal Engineering Company. The Montreal company is closely associated with the Calgary Power Company. Mr. Baxter will also have charge of the developments of the company in such places as Porto Rico, Venezuela, San Salvador, Demarara and Newfoundland.

Nine out of eighteen men employed as plasterers on the new post-office building at Calgary were brought in from Vancouver, while Calgary and district workmen walked the streets as unemployed. We, too, question the wisdom of such action. Alderman White deserves the support of all in his fight in the interest of Calgary workmen in this connection. The province of Alberta, through the Alberta Development Board, is advocating the buying of Alberta-made products, which should involve Albertans' employment, and surely every industry and community in the province can fall in line with the "buy-at-home" idea. In other words: Buy your labor at home!

#### COWLEY HAPPENINGS

The wise old stork, who has for ages past been finding good homes for babies, singled out Mr. and Mrs. Jack Welsh on a recent visit to the district, where he left an unusually fine baby, boy, on Monday. Come again!

Mr. Julius Harder, who moved to the district with his family and took up residence on the James Smyth place, two and a half miles from town about a year ago, died at his home on Monday. The funeral will take place on Friday, when interment will be made in the Cowley cemetery. Mr. Harder was only forty-eight years old. He had been in ill health for around a year. Besides a wife, he leaves four daughters and two sons, who have the heartfelt sympathy of all who know them.

The waist drive, given in aid of the Christmas Tree fund on Wednesday night, was well attended. There were fifteen tables at play. Prizes were won in the following order: ladies' first, Mrs. Ethel Bouthillier; consolation, Mrs. George Porter; gents' first, M. A. Murphy; consolation, F. A. Tustian. Harold Cleland was winner of the lucky prize. Around twenty-five dollars was realized.

Cowley was favored by the Lundbreck people, when several of them attended their Christmas Tree waist drive on Wednesday night. On Friday night, Cowleyites returned the compliment by attending the Lundbreck waist drive and swelling the crowd to the extent of three extra tables. There were thirteen tables at play. Prizes were won in order as follows: ladies' first, Miss Bent; second, Mrs. Mundie; consolation, Miss Penn; gents' first, Mr. Bundy; second, Mr. Mundie; consolation, Robert Littleton. A fish pond was an added attraction, which created considerable amusement also. Following a dainty luncheon dancing was indulged in for a while, with Mrs. Ed. Grove at the piano. Around thirty dollars were added to the Lundbreck Christmas Tree fund thereby.

One of the best Christmas entertainments ever held here will be staged by the village children on Friday, December 19th, when over a hundred children will be remembered by old Saint Nicholas, if they don't do anything bad between now and then.

We understand it has been decided to close out the Salvation Army work in this district, and that the officers in charge will be leaving next week for new fields of labor.

Bill Matkoff, lumberjack, has been committed for trial on a charge of Christmas Tree murder in connection with the recent fatal shooting affray in a Cranbrook beer shop. The two victims hit by the bullets succumbed.

The Blairmore Miners' Community opera-house, Blairmore, on Friday, December the 19th, commencing promptly at 7 p.m. Children's tickets must be presented on the stage.

## Properly Brewed BEER

### A Healthful Food

Thousands of the working classes, while engaged in hard, physical labor, find in beer, a cheap, helpful food, which, besides its nourishing effect, possesses invigorating and strength-restoring qualities.

Beer, therefore, must be considered as a beverage conducive to health in the direction of moderation and true temperance.

## Alberta Money, Alberta-Made, should stay in Alberta . . . for Alberta Trade

A concerted effort is being made to persuade Albertans to give preference to goods PRODUCED-IN-ALBERTA in their Christmas shopping. Retail merchants are being asked to assist by giving prominent display to ALBERTA-MADE MERCHANDISE.

Perhaps you have in the past, permitted yourself to be swayed by the eloquence of the sales person, who has casually suggested that what is being offered for sale "is imported." Foreign importations do not necessarily imply superiority.

### In Your CHRISTMAS SHOPPING be 'ALBERTA-CONSCIOUS'

It does not require much argument to emphasize the advantages of purchasing PRODUCED-IN-ALBERTA products. Our manufacturing facilities today are such that we can compete in the matter of quality, quantity and price with many of the most advanced and progressive manufacturers of other countries.

## CORBIN HAPPENINGS

Thursday afternoon saw the ladies gathering at the Lodge Hall, to enjoy the semi-monthly bridge party, held by the Rebekahs. Mrs. Parsons and Mrs. Barney Lyne were the lucky prize winners.

December 7, 1929, saw the last car out in Corbin. This year we are more fortunate. The road is in excellent condition for this time of year, and all local car owners are still privileged to enjoy the use of their cars.

Andy Waddington, son of Mr. and Mrs. D. Waddington, met with an accident Friday night while coasting down a hill, spraining a leg.

The Club hall was the scene of a very gay dance on Saturday last, when Mr. and Mrs. John Petrunek gave a wedding party for their friends.

A meeting of the Hockey Club was held on Tuesday night last.

The mines' electrician, Victor Gregor, who met with a serious accident several weeks ago, was able to return to his duties this week.

Both the senior and junior teachers at the local public school are very busy these days, preparing their pupils for a Christmas concert, to be held at the end of the term.

## CANADIAN NATIONAL CONTRACTS AWARDED

Contracts for the millwork on the new Canadian National hotel now under construction in Vancouver were let last week to Rodger and Sigurdson Millworking Company Ltd., of Vancouver. Nine firms tendered on this work and the contract was let to the lowest tender.

Included in this contract, which amounts to approximately \$125,000.00, is that for walnut veneered doors, of which 3,000 will be required.

The contract for 4,000,000 bricks will be distributed among a number of firms in Vancouver and Victoria, thus providing much work, and will also do a lot to relieve the unemployment situation at the coast.

Tenders for hardware were awarded to two Vancouver firms, McLean McFeeley Ltd. and P. D. Gordon. Tendering for this work was very competitive and Eastern Canada firms put in for the work in addition to Vancouver contractors. After a long and careful consideration of the figures, the two Vancouver firms were advised that their tenders were successful. Material to be used in this contract will be Canadian and will be manufactured in Canada. The contracts for hardware and walnut veneered doors were two of the largest ever let in Canada.

Splendid progress has been made on the construction work at the new hotel. The stone contractors have commenced placing the stone and marble. This work will be carried along steadily and will keep progress with the general construction of the immense building.

Montreal uses one hundred tons of beef every day in the year.

## C. N. P. HOCKEY SCHEDULE

Following is the correct schedule.

## First Section

Dec. 12.—Pincher at Coleman.

Dec. 15.—Blairmore at Bellevue.

Dec. 17.—Coleman at Blairmore.

Dec. 17.—Bellevue at Pincher Creek.

Dec. 19.—Blairmore at Coleman.

Dec. 23.—Pincher Creek at Bellevue.

Dec. 26.—Coleman at Pincher Creek.

Dec. 26.—Bellevue at Blairmore.

Dec. 29.—Pincher Creek at Blairmore.

Dec. 30.—Coleman at Bellevue.

Jan. 5.—Blairmore at Pincher Creek.

Jan. 5.—Bellevue at Coleman.

## Second Section

Jan. 7.—Coleman at Blairmore.

Jan. 9.—Bellevue at Pincher Creek.

Jan. 9.—Blairmore at Coleman.

Jan. 12.—Pincher Creek at Bellevue.

Jan. 14.—Bellevue at Blairmore.

Jan. 14.—Coleman at Pincher Creek.

Jan. 16.—Pincher Creek at Coleman.

Jan. 19.—Coleman at Bellevue.

Jan. 21.—Blairmore at Pincher Creek.

Jan. 21.—Bellevue at Coleman.

Jan. 23.—Pincher Creek at Blairmore.

Jan. 26.—Blairmore at Bellevue.

Winners of each section will play off for the Wright Cup and the right to represent the Crows' Nest Pass in the provincial elimination contest.

Should the same team win both sections, such team shall automatically be declared the champions, and the two second-place teams will then play off for the Cruickshank Cup.

## HOUBREGS AND KEMP GIVE BIG PROMISE

Speaking of the initial workings of Jollett Houbregs and Dave Kemp with Seattle, an exchange says: In Houbregs, manager Turner believes he has a future major league player. Houbregs stands six feet two inches in his stocking feet and weighs over two hundred pounds, and we believe will earn for himself a place in the hearts of the Seattle fans. In Dave Kemp, the young goaltender, from Blairmore, Alberta, also, Manager Turner believes he has at last satisfactorily found a player to fill this difficult position. At the opening game in Vancouver, Kemp received his "baptism" in professional hockey and played like a veteran. In addition to his ability, he has a personality that should please the fans. This rookie from Blairmore has come through with flying colors. At first some of the railbirds and others did not think he looked so good, but after seeing him in two or three games and after seeing the way he performed like a veteran, they have changed their minds. He sure has gone big and looks to be one of the big finds of the season.

Famous last words: "I took off my shoes and sneaked up the stairs."

## ELKS ELECT OFFICERS

Officers of Blairmore Lodge of Elks were elected on Tuesday night as follows:

I.P.E.R.—C. J. Tompkins.

Exalted Ruler—W. W. Scott.

Esteemed Leading Knight—H. O. Westrup.

Esteemed Loyal Knight—Geo. McFadin.

Esteemed Lecturing Knight—H. H. Griesbach.

Secretary—J. R. McLeod (sixth term).

Treasurer—J. V. McDougall (fourth term).

Inside Guard—D. Kemp.

Tyler—W. Howe.

Trustee—3 yr. term, J. A. Kerr;

who with J. E. Gillis and W. H. Chappell form the board of trustees.

The initiatory degree was conferred at the regular meeting of Blairmore Lodge of Elks on Tuesday night.

## IN LOVING MEMORY

Of my beloved husband, Thomas Bradley, who slept away December 13th, 1929.

"It is not the tears at the time that are shed

That tell of the heart that is torn, But the passionate tears in after years

And the loneliness silently borne. No length of time, no lapse of years,

Can dim our loved one's past, For treasured memories held him dear

'And will while memory lasts.' Lovingly remembered by his wife,

son and daughter.

## NOTICE

APPLICATION FOR LEASE OF ROAD ALLOWANCE OR SURVEYED HIGHWAY

NOTICE IS HEREBY GIVEN that Mr. Fred Horvsi, of Frank, Alberta, has made application to the Minister of Public Works, Edmonton, for a lease of the following road allowance or surveyed highway, viz:

"All that portion of the original road allowance adjoining the west boundary of the southwest quarter of Section 31, Township 7, Range 2, west of the Fifth Meridian, and lying north of the northerly limit of the line through Block 28, as shown on plan of the Village of Frank, produced across said road allowance."

Any protest against the granting of the above mentioned lease must be forwarded to the Minister of Public Works, Edmonton, within thirty (30) days from the date of this notice.

Dated at Frank, Alberta, this 1st day of December, 1930.

FRED HORVSI, Applicant.

## Making your profits Permanent

THOUSANDS of men have "cashed in" on their holdings after years of unremitting toil and have re-invested only to lose their profits in unwise speculation. Life annuities provide an irrevocable protection against such calamities.

In May, 1928, a group of North Dakota business men sold their extensive holdings. While the deal was pending they decided to reinvest the proceeds in life annuity contracts. After investigation they paid the Sun Life Assurance Company of Canada over three million dollars in premiums for annuity contracts. They were struck by the safety and convenience of these annuities and the large return.

Get details from your nearest Sun Life Representative.

## Cool Heads and Clear Thinking

These are times that test men. In the present economic conflict raging throughout the world, men are being put to the test just as truly as they were during the stress and strife of the Great War. There is tragedy and suffering now as there was then. And because of these conditions men and women today are very apt to allow their usual habits of thought and action to slip their moorings and to indulge in unconsidered, reckless thought, speech and action which in their more sober moments they would not only refuse to countenance in themselves but would condemn in others.

It is well that people should give serious consideration and study to the existing situation, not merely as they themselves may be affected, but collectively as a community in the interest of the welfare of all. It is well that difficulties should be made known, that just grievances should be clearly stated, that suggested remedies should be outlined, discussed, and, in the light of all the circumstances, action taken. Therefore, the many meetings being held throughout the country are a gratifying sign of an aroused public interest in the public welfare, but only so if their object is constructive, that is, to find a way out of difficulties, to better conditions, and not destructive in character leading to only greater confusion of thought and still greater chaos.

Public discussion calls for real leadership, thoughtful, sane and constructive. It is not the man who shouts the loudest, who berates everybody and everything, who calls for drastic action against this or that law or institution, who is the real friend of the country or of the people for whom he professes to be most sympathetic. This class of individuals always comes to the front when men are discouraged and feeling in a more or less desperate mood. He does not attempt to appeal to their reason, but to their feelings and passions. He is not a true and safe leader, but a man who is destructive, and generally quite incapable of advancing any sound constructive policy that is likely to be productive of good.

Attempts by agitators of this type to sway the feelings and passions of people, in a word, to seek to capitalize upon the hardships which people may be temporarily undergoing, should not only be frowned down upon by the stalwart, right-thinking men and women of this country, but these last mentioned men and women, who are and always will be the real backbone of any country, should not hesitate to speak out boldly in opposition to the un-sound and unwise advice and actions of these trouble makers.

Newspapers contain reports of meetings in different parts of the country at which, despite the protests and opposition of the more intelligent and far-seeing people present, resolutions are adopted demanding the adoption of certain policies and the taking of certain lines of action which, if carried into effect, instead of bettering conditions would only serve to prolong existing difficulties and make them infinitely worse. Secession proposals, threats of boycotts, defiance of law and organized resistance to law officers, only add fire to flames already burning. They mean more, not less trouble and suffering. They contain no element of remedy.

In China, or in South American countries, revolution may still be the only method of successfully achieving reforms, and in the present world-wide depression, the expedient of revolution has been resorted to in these countries, but whether conditions will be bettered thereby, time alone will disclose. But in Canada, Great Britain, the United States, the people enjoy democratic political institutions which place the power of constitutional action right in their own hands. If present national, provincial or municipal policies are not sound and in the best interests of the masses, then the people themselves can right them. They may not be able to immediately correct all their economic difficulties, because in this world no one nation can govern its own economic conditions, much as it may strive to do so. But it can itself adopt those policies which it believes are best calculated to ease its difficulties, solve its problems, and advance the welfare of its people, not of one class or section alone, but the general interests of all.

It is to the evolution of such policies that the thought and energies of people should now be devoted; not in following blind leaders of the blind who would tear up and destroy on the vague promise that upon the wreckage they created they would build up something different, but in explanation of the exact nature of which they are so delightfully indefinite.

In conclusion, let it be repeated that these are times that test men. These are times that call for cool heads, clear thinking; not for wild talk and a multitude of untied theories.

## Pensions for the Blind

## Saskatchewan Body Requests That Federal Government Be Asked To Take Action

To ask the provincial government to petition the Federal Government for pensions for the blind in Saskatchewan, a delegation of members of the advisory board of the Canadian National Institute for the Blind met Premier Anderson at the parliament buildings, Regina, recently.

The delegation to the Saskatchewan Government is a result of the action taken by the Manitoba Government at its last session when they received a similar request for pensions for the blind in Manitoba from the Manitoba division of the institute.

The Saskatchewan delegation was composed of members of the advisory board of the Canadian National Institute for the Blind in Saskatchewan, assisted by Captain Baker, general secretary for the institute in Canada, and Major E. Flekman, general manager of the central west division with headquarters in Winnipeg. The chairman of the delegation was Dr. F. C. Middleton, who is the chairman of the Saskatchewan advisory board.

A machine has been invented to test the toughness of breakfasts. A dial attached to the blade of the simple but ingenious instrument records the degree of difficulty which the blade encounters in cutting through the tissue of the meat.

Worry will reduce a person's weight, but few people ever seek that remedy.

Deposits in savings banks in Germany are increasing.

## Demanding Federal Assistance

## Ottawa Flooded With Suggestions For Relieving Distress In The West

Resolutions demanding federal assistance for western farmers are flooding into the capital daily, every mail bringing scores of declarations from Boards of Trade, farmers' localities and other bodies. The proposals in these resolutions vary greatly, but agree in demanding a minimum price to be fixed for wheat by the Dominion.

Cabinet ministers, quite frankly, are amazed at the widespread dissatisfaction obtaining in the west and are at a loss to know what to do in the circumstances.

The resolutions, as a rule, ask for the following measures:

- 1.—Abolition of the gold standard.
- 2.—Payment by parliament of all outstanding debts of farmers, including grocery bills, chattel mortgages, overdue interest and 25 per cent. of all mortgages.
- 3.—Fixing of the price of wheat at anywhere from 70 cents to \$1 per bushel.

## France and Disarmament

## French Nation Would Seek For Security First

And, for the French of all orthodox schools of political thought, the precedence of security over disarmament is indisputable. They have in practice reduced armaments; but the theory that armaments should not be reduced until there is security is for them as unshakable as the rock of Gibraltar. There are plenty of arguments to the contrary, but they do not convince the French. One can ask whether absolute security is possible—and in that case, as there is no such thing as absolute security, there is an end of disarmament. One can argue that disarmament is one of the conditions of security—but the French would only repeat that they would have security first. Sisley Huddleston in the New Statesman.

## Paved Highway Across Canada

## Predicted That It Will Be a Reality Within Ten Years

Canada's proposed Atlantic-to-Pacific highway was pictured as a paved thoroughfare of the future to delegates attending the annual meeting of the Canadian Association of Tourist and Convention Bureau at Winnipeg. Mayor Ralph H. Webb of Winnipeg, disclosed that western mayors had been assured by Prime Minister R. B. Bennett, with whom they conferred at Ottawa some time ago, that the Dominion government was prepared to participate in the completion of the highway on a fifty-fifty basis with the provinces.

## Helium Gas

## Western Canada the Potential Source Of Supply For The Empire

The disaster to the airship R-101 and subsequent discussions about the use of the inert gas helium instead of inflammable hydrogen to provide the lift interest deeply two regions in the British Commonwealth—Canada and Trinidad. At present the entire world supply of the gas is obtained from the United States, and helium will lift the airships now being constructed there. Prospects have discovered large potential supplies of the gas in Western Canada, and, dependent on the future of airship policy, there is a likelihood that efforts will be made to recover the gas.

## Appreciates Canada's Action

## United States Attorney-General Says Liquor Smuggling Driven From Canadian Border

Liquor smugglers have been driven from the Canadian border to the high seas by the Canadian Anti-Export Act, United States Attorney-General Mitchell declares in his annual report issued at Washington.

The Canadian nation dealt a severe blow to border traffic when it amended its Export Act of May 30, 1930, and outlawed direct clearance of liquor from Canada to the United States," the report says: "The natural result of this restrictive legislation was to drive some additional professional smugglers to the high seas, where their activities would be more likely to succeed. The French possession of St. Pierre, which has been a number of years has been the chief rendezvous and supply point for the liquor-smuggling fraternity off our eastern coast, has experienced a substantial increase in this form of business."

"It is also noteworthy that 25 of the 29 foreign liquor ships seized during the year were British. Vessels of this nationality still predominate in the trade, even though the chief smuggling base is French. Increased activity in Nova Scotia ports has been observed, because most of the vessels which operate in the smuggling trade out of St. Pierre are registered in Nova Scotia ports and are owned, at least ostensibly, by Canadian citizens."

"The hampering of the liquor smuggling traffic across the Canadian border has already been mentioned. This action on the part of Canada is real evidence of the desire of that nation to co-operate with us in the solution of our smuggling problem, and is very highly appreciated."

Twenty-seven thousand seven hundred and nine persons went to jail for violation of the prohibition laws in 1930—5,017 more than in 1929 and 4,238 more cases were pending at the close of the year than at the close of the previous year.

"Enforcement of the National Prohibition Act," says the report, "showed improvement over 1929."

## May Go To Mexico

## Doughbtor Colony From Canada Reported To Be Negotiating With Mexican Authorities

A dispatch from Mexico City says that Peter Verigin and Aaron Sapiro, representatives of the Doughbtor colony of Canada, conferred with the secretary of agriculture regarding the possibility of 10,000 to 20,000 Doughbtor coming to Mexico if the government would help them to acquire land.

Verigin and Sapiro received the support of the executive committee of the National Confederation of Chambers of Commerce, and this group obtained the hearing before the secretary of agriculture.

It was said that if the Doughbtor came to Mexico they probably would settle in the northern portion.

Makes Breathing Easy. The construction of the air passages and the struggle for breath too familiar evidence of asthma, trouble, cannot be cured by Dr. J. D. Kellogg's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very severe conditions. It is no untidy, experimental preparation, but one with many years of strong service behind it. Buy it from your nearest dealer.

## Railway Crossing Accidents

## Nineteen Deaths From This Cause Recorded For September

Deaths as a result of railway crossing accidents in September numbered 19, according to a report issued by the board of railway commissioners. There were 45 accidents and besides those killed 70 were injured. By provinces, accidents were: Prince Edward Island, 1; Nova Scotia, 3; New Brunswick, 5; Quebec, 13; Ontario, 10; Manitoba, 2; Saskatchewan, 2; Alberta, 5; and British Columbia, 4. Only three of the 45 accidents occurred at protected crossings.

The total for the month of all accidents in connection with railways was 183, in which two passengers, seven engineers, and 41 others were killed.

## Imports From U.S. Lower

## Imports into Canada during October from both United States and Great Britain showed material decreases from corresponding figures for 1929, with United States losing proportionally more trade than Great Britain.

Total imports for the month aggregated \$78,353,000, compared with \$116,371,000 in October, 1929, a decrease of \$37,918,000.

Production of aeroplanes and aero engines in England is near a record peak.

## Was Weak and Run Down

## Could Scarcely Do Housework

Mrs. Edward A. Allen, Brampton, Alta., writes: "I would like to tell you of the great benefit I have received from your Milburn's Heart and Nerve Pills. I was feeling very run down in health, and was so weak I could scarcely do my housework. In fact, I would have to lie down in the afternoon for an hour or so. I saw your name in the drug store and took a box home with me, and I was delighted with my renewed strength. I have recommended them to my neighbor and feel sure they will help her too."

Price 50c a box

Sold by all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co. Ltd., Toronto, Ont.

## Western Horses For Russia

## Saskatchewan Man Receives Order For 2,000 Horses From Soviets

A sale of 2,000 Canadian horses has been negotiated with the government of Soviet Russia by Alphonse Champagne of North Battleford, Sask., he reported on his arrival in Ottawa, following a business trip to Europe. The horses will be shipped from Western Canada at an early date.

Mr. Champagne formerly sat in the House of Commons for North Battleford, but now devotes his entire time to private business. He stated that his preconceived notions of conditions in the Soviet have been completely changed as the result of his visit to that country. "I found not only government officials but the people generally friendly to Canada," he said, "and anxious to further commercial relations between the two countries."

## Artist Travels With Circus

## Dame Laura Knight Produces Paintings That Breathe Of The Big Top

After travelling with a circus through England during the summer season, Dame Laura Knight has placed her paintings on exhibition in London. They are said to have made a sensation, those of ponies, zebras and elephants being almost alive with color. Some of the sketches of behind the scenes are particularly vivid and spontaneous. When members of the circus troupe visited the exhibit they gave an acrobatic turn to show their appreciation. The fair artist travelled as a regular member of the troupe and shared their joys and hardships.

Douglas' Egyptian Liniment is especially recommended for spider, or infection of cow's test. Invaluable also in cases of sprains, curbs and splints.

## No Permanent Depression

## Bank President Refers To the Soundness Of Our General Economic Condition

"In this virile country of Canada with its abundant resources there can be no permanent depression," Sir Charles Gordon, president of the Bank of Montreal, stated in his address at the annual meeting of the bank at Montreal. Sir Charles' review of the business of the bank and of the Dominion during the past year contained that under all the circumstances Canadians could justly congratulate themselves upon the inherent vigor and soundness of their general economic situation.

## BRITISH COAL MINERS REJECT STRIKE PROPOSAL

London, England.—There will be no great national coal strike in Great Britain, for the time being at any rate. Delegates to the miners' conference have turned down a strike proposal by the narrow margin of 250,000 to 200,000. Their decision also implied there would be no strike ballot in the mining districts in question as previously seemed most likely.

Interest has now turned to the individual districts, above all to Scotland, where 85,000 miners are still out, and to South Wales, where the outcome of the negotiations going on between the owners and miners may well give a lead to the whole country.

In the South Wales fields probably the most important coal area in the country, the principal point at issue is the miners' demand that the 7½-hour working day, established by the new Coal Mines Act, be enforced. The owners have insisted that they be permitted to spread the 45 working-hours in a week through five eight-hour shifts and one five-hour shift. Credit was being given to Premier Ramsay MacDonald for his part in averting a national walkout. He and other members of the cabinet, sitting with the delegates themselves, urged that every effort be made to reach a settlement with the owners and his counsel prevailed.

### Viceroy Of India

Name Of Ramsay MacDonald Is Suggested For Office

London, England.—The Daily Mail says a suggestion has been seriously advanced that Premier Ramsay MacDonald become viceroy of India in succession to Lord Irwin, who will retire in April.

The Mail adds that the idea is a result of the good impression which Mr. MacDonald has made in conducting the Indian round table conference. It admits that such an appointment, which customarily is accompanied by a peerage, may appear fantastic, but says that the idea is more than mere rumor, and believes the appointment would satisfy the Indian people.

The question of Lord Irwin's successor is a favorite subject for speculation in political quarters just now. Lord Gorrell is most frequently mentioned.

### Aviators Leaves Message

Capt. Burke and Companions, Missing Aviators, Carve Words On Tree, White Horse, Yukon Territory.—"October 17, leaving for Wolfe Lake, meet food badly."

Such was the message discovered carved in a tree near the stranded plane of Capt. E. K. A. Burke and two companions who have been missing in this north country since October 11. Pilot E. L. Wasson and Joe Walsh, veteran prospector, returned here after having inspected the plane at close range. Wasson and Walsh sighted the machine from the air ten days ago and three days later flew to within fifteen miles of the location, muzzling the intervening distance on snowshoes.

### Relief For Indians

Any Distress Will Be Taken Care Of By Government

Ottawa, Ont.—Prompt action will be taken by the government to relieve any distress reported among Indians this winter. Hon. T. G. Murphy, Minister of Interior and Indian Affairs, said on his return to Ottawa after a month's trip to the west.

Mr. Murphy conducted a personal examination of numerous Indian reservations in the neighborhood of the larger western centres and brought back the impression that in the southern sections, at least, conditions among the Indians were normal.

Canada Doing Her Part

Ottawa, Ont.—Canada is doing her part as regards aiding in the world suppression of narcotics. Reporting for the health committee of the League of Nations Society in Canada at an executive meeting of the society, Senator Dr. H. S. Bland pointed out drugs were neither manufactured nor exported from Canada. Through the R.C.M.P. and narcotics branch, the Dominion Government maintained a close tab on imports.

Argentina's present radio boom is greater even than last year.

W. N. U. 1937

### By-Election Won By Labor

Voting In Whitechapel Favors the Government Candidate

London, England.—James Hall, Labor party candidate, won the by-election for Whitechapel recently.

The results of the polling were, James Hall, Labor, 8,544; Barnett Janner, Liberal, 7,445; T. L. E. B. Guinness, Conservative, 3,735; Pollitt, Communist, 2,106.

The victory represented a greatly reduced majority for Labor. Labor's vote of 8,544 out of the total of 21,830 compares with the 13,701 ballots cast for the party, out of 21,638, in 1929.

Whitechapel, comprising, for the most part, one of the so-called poor sections of London, had returned Labor candidates in 1923, 1925 and 1929, and each time with a large majority. The majority of Harry Gosling, Labor nominee, in the general election of 1929 was 9,180, one of the largest in the Kingdom. The vote then was: Gosling, 13,701; Sedgewick, Liberal, 4,832; and T. L. E. B. Guinness, Conservative, 3,417.

## HEAVY GRAIN CARRY-OVER HAS BEEN DISPOSED OF

Port Arthur, Ont.—The statistical situation as far as Canada's wheat crop is concerned is in a good condition, according to E. B. Ramsay, chief grain commissioner for Canada, who arrived in Port Arthur.

"We have a high quality crop to sell and the movement has been fairly free," he said, explaining that between 5,000,000 and 7,000,000 bushels were being shipped to Europe every week. The heavy carry-over of approximately 100,000,000 bushels of last year has been disposed of, Mr. Ramsay explained, and if the present shipments to Europe can be kept up to the end of the season, the carry-over for next year will be back to normal. There was every likelihood that this would be the case, depending to some extent on the quality of the Argentine wheat, which will come on the market in February.

Dumping of Russian wheat on the British market had its effect, Mr. Ramsay stated, but he pointed out that "the Russian surplus" had been leased and the situation from now on would not likely be disturbed by anything the Russians could do. Although pointing out that his department had nothing to do with the marketing of the grain crop, Mr. Ramsay said "I feel we are at the bottom of it now. No one can really tell what is going to happen, but I believe there will be a gradual change for the better."

### Assembly Completes Work

Disarmament Commission Asks League To Set Date For Conference

Geneva, Switzerland.—Completing its task of drafting a general disarmament scheme for consideration by a world conference the preparatory committee invited the council of the League of Nations to set a date for this momentous assembly of statesmen.

The commission rejected an effort by Germany to have the commission recommend the specific date of November 5, 1931, for convening the general conference.

Canada lost a fight to delete from the article military planes and personnel used in civil work, such as patrolling forests and carrying aid to distressed citizens in remote places. The Canadian plan was supported by the United States and it is understood some arrangement will be reached at the general conference to meet the wishes of both countries.

### Britain Protests Radio Speech From Russia

Regarded As Direct Violation Of Anti-Propaganda Agreement

London, England.—The British government will send a formal protest to Moscow against a radio speech broadcast from the Soviet capital, Rt. Hon. Arthur Henderson, foreign secretary, informed the House of Commons.

The speech, he said, is regarded as "inciting British workers to revolution," and was in direct violation of the anti-propaganda agreement.

Fire Threatens Northern Town

The Pas, Man.—The settlement of Gullien, more than half-way up the Hudson Bay Railway from The Pas, was threatened by fire, according to word reaching here. A restaurant, a pool room and a general store were wrecked by the blaze before it was controlled. Damage totalled \$5,000.

### HEADS MENTAL HYGIENE WORK

Dr. C. F. Martin, dean of faculty of medicine, McGill University, president of Canadian national committee on mental hygiene, who was principal speaker at a meeting in Convocation Hall, Toronto.

### Trans-Canada Drivers Make Slow Progress

Finding Trip In Motor Car Is Hard Work

Hearst, Ont.—Pushing doggedly forward through northern Ontario bush country in 10-below-zero weather, Trans-Canada drivers made slow progress in their attempt to be the first to cross Canada by motor car, when they arrived on December 2 at Gauthier's trading post at Pigeon River, 90 miles west of here.

Word that in the past week they had covered 70 miles of trackless spruce swamp country was received here. Both men and their roadster are in good condition.

## RAMSAY OPPOSES PLAN TO REDUCE WHEAT AREAS

Port Arthur, Ont.—E. B. Ramsay, chief commissioner of the Board of Grain Commissioners of Canada, addressing the Port Arthur Chamber of Commerce at its annual meeting here, said he was not in sympathy with suggestions for a cutting-down of wheat areas of crops in Western Canada, principally because the whole transportation system of Canada depended on the amount of grain moved.

He preferred to rely on greater yield capacity quality and transportation facilities as advantages for Canada, declaring that they often went through merely because there was no one ready to oppose them.

He intimated he preferred a personal study of and contact with actual conditions by the board, actuated with a desire to administer the Canada Grain Act in the public interest.

He pointed out the Canadian grain crop was moving freely. There had been no embargo, he said, and he predicted none; and he believed that by July next things would be pretty well cleared up. The worst had been passed, he thought.

It was his opinion Port Arthur and Port William would not suffer unduly from the competition of the Hudson Bay route. Replying to a suggestion of Mayor Gibson that the head offices of the Board of Grain Commissioners should be in Port Arthur, Mr. Ramsay said that if his personal opinion had governed in the matter, they would not be in Winnipeg.

## BUY CHRISTMAS SEALS

When a Feller Needs a Friend

### Constitution For India

Plan Is Gradually Taking Shape At Round Table Conference

London, England.—In rough outline, a federal constitution for India is gradually appearing in the discussions of the round table conference. It is emphasized in authoritative quarters that no decisions have been reached as yet. The scheme appears only in skeleton form. Everything still is in the tentative stage.

But discussion in the conference, sitting as a federal relations committee, is turning on these subjects as coming within the domain of India's proposed new federal authority:

1. Shipping, navigation, and navigation services.
2. Salt.
3. Currency and coinage.
4. Trade, commerce and banking.
5. Control of opium cultivation.
6. Control of petroleum and explosives.
7. Geological survey.
8. Invention, designs and copyrights.
9. Migration from and into India, and interprovincial migration.
10. Traffic in arms and ammunition.
11. Survey, meteorological services, census and statistics.
12. Immovable property in the possession of the government of India.
13. Federal public services.

Indian princes, rulers of their own states, and representatives of British India alike agree that all the above are matters of common concern. It is the policy of the conference, therefore, in plotting out the new federal authority, to consider them first.

Consideration of four other vital subjects has been deferred. These are: First, defence of India and all matters connected with the army and navy, including naval and military works and cantonments; second, external affairs, including the naturalization of aliens, and pilgrimages beyond India; third, relations with the states in India; and, fourth, political changes.

### Start Lengthy Flight

British Aviators Attempting Record Trip To Capetown

Croydon, England.—Miss Winifred Spooner, 23, and Flying Officer E. C. T. Edwards, started December 3, on a 10,000-mile air journey to Capetown, in their blue and silver monoplane. They will attempt to break the nine-day flight record to the South African city.

The aviators intend to fly by day and by night, taking alternate turns at the controls.

Miss Spooner has been flying for three years. Early in 1930 she completed a flight from South Africa to Croydon.

She is a sister of Captain Tony Spooner, former Royal Air Force pilot and now flying instructor of the Montreal Light Aeroplanes Club.

### Eckener To Testify

London, England.—The court of inquiry into the crash and destruction of the R-101 in France recently, has been resumed after an adjournment of several weeks with Dr. Hugo Eckener, master of the Graf Zeppelin, present to give his expert testimony.

Should Watch Chinese Markets

Vancouver, B.C.—Greater attention should be given to the market opportunities of Hong Kong and southern China as Canadian business men wish to capitalize these opportunities, said Paul Sykes, Canadian trade commissioner to Hong Kong.

Had Outstanding Success

Saskatoon, Sask.—Outstanding success in the \$500,000 fox show was recorded by Dr. H. MacDonald, Saskatoon, who won three first and two seconds in the six classes he entered.

### Constitutes a Precedent

Australia First Dominion To Have Native-Born Governor-General

London, England.—A native-born Australian will succeed Lord Stonehaven, the present governor-general of Australia, in the person of Rt. Hon. Sir Isaac Isaacs, chief justice of the Commonwealth, according to announcement made.

Sir Isaac Isaacs will take up his duties when Lord Stonehaven's term expires at the beginning of the new year.

The announcement of his appointment, made by the Imperial Government, on behalf of His Majesty, constitutes a precedent in Empire annals. The new governor-general will be the first native-born citizen of his country to represent the King in any of the Dominions.

While Sir Isaac is in fact the first native-born governor-general of any of the older self-governing dominions, he is not the first in the Empire. Both the governors-general who have served in the Irish Free State since its inception have been of Irish citizenship. Timothy Healy (1922-1928), came from Banntry, and James McNeill, present governor-general, is a native of County Antrim.

### Flour Price Probe

Department Will Have Co-Operation Of Large Milling Companies

Ottawa, Ont.—Further inquiry into flour prices in Canada will be made by the Department of Labor, and in this inquiry the department has been offered the full co-operation of the great Canadian milling companies. Announcement of the continued investigation was made by Senator G. D. Robertson, Minister of Labor, at the conclusion of a two-hour conference with representatives of seven large Canadian milling companies of the Dominion.

"It is probable that a report summarizing the results of the labor department's inquiry by registrar into bread prices will be completed in the not distant future," said Senator Robertson, "and the offer to furnish all desired information, volunteered by the millers, will be accepted. The flour inquiry will be pursued further as rapidly as possible, it being obvious that many factors enter into the matter which must be the subject of full inquiry and consideration before a definite departmental decision can be made as to whether or not an inquiry by commissioner will be necessary in the public interest."

## HERMAN TRELLE AGAIN WINS THE WHEAT TITLE

Chicago.—Canada's fame as the finest wheat producing country in the world was again maintained when Herman Trelle, the modest agriculturist of Wembley, Alberta, in the northern Peace River district, was once again crowned "wheat king" at the Chicago International Hay and Grain Exposition.

Repeating his success of 1926 when he brought the Peace River area to world attention as a premier agricultural producing district, Trelle, who four years ago won the title of world's oats king as well as the wheat crown, has again marked his victory with an exhibit of hard red spring grain.

It was a double victory for Canada, however, as George Avery, of Kelso, Sask., in the heat of the grain trial growing best, was declared the reserve champion. He exhibited sample of Durum, while, to the surprise of eminent grain authorities in attendance at the International, beat out the champion spring hard red winter samples, the best in their class, of C. Edson Smith, a former "wheat king" of Corvallis, Montana.

The Canadians were recipients of congratulations from all parts of the continent, and especially from western Canada and the home provinces of the winners.

Trelle's championship was the sixth for Canada in the 12 years of the International show. The other six times, it has gone to growers from Montana, the veteran C. Edson Smith being the only other grain man twice-crowned king of the wheat lands. It was also the first time crown, as a soft Durum variety, as entered by Avery, had won a major award, the reserve championship.

Featured by perfect uniformity and balanced content, the exhibit of the newly crowned monarch of wheat weighed 67.5 pounds per bushel, a record weight. The reserve championship grain weighed 61.1 pounds to the bushel, and also was of perfect uniformity. Trelle considered his winning samples the best he has ever exhibited.

## BRACKEN TALKS ON TROUBLES OF WHEAT GROWERS

Winnipeg, Man.—Over-production of wheat arising out of high prices during post-war years was blamed by Premier John Bracken for present troubles of prairie farmers. Mr. Bracken spoke before the delegates to the annual meeting of Union of Manitoba municipalities gathered at a banquet given in their honor by the Provincial Government.

"Who is to blame," Mr. Bracken asked, "for encouraging cultivation of 15,000,000 more acres since the war, and the production of seven times more wheat than we can consume? The farmer should not be called on to bear the burden. There are some who say that proposals to stabilize the price of wheat are unsound—but they are better than having to adopt the living conditions of the self-agriculturists of Russia."

Cause of present difficulties lay in high prices for wheat in the years following the war, bringing in their train nearly 40,000,000 added acres of wheat lands throughout the world and resultant depressed prices, the premier asserted. Only calm investigation of the causes of depression, creation of new methods, efficiency in production, and trade arrangements with importing countries to insure markets could improve conditions, he believed.

Mr. Bracken recommended to delegates that they call on the Dominion Government to implement its promise to assume payment of old-age pensions. When the Dominion did that, he said, the province would further relieve the municipalities of the heavy levy.

### Wheat Quota System

Plan Is Favorably Received By Canadian Grain Exporters

Ottawa, Ont.—Proposals for a quota system in Great Britain for wheat grown in the Empire have apparently been favorably received by Canadian grain exporters. Commenting on the statement made in the British House of Commons by Rt. Hon. J. H. Thomas, secretary of state for the Dominions, that study was being given to such a scheme, Hon. H. H. Stevens, Minister of Trade and Commerce, said that no unfavorable reaction had been evident in this country.

Proposals for quotas were considered by the committee on economic co-operation, the Imperial Conference, Mr. Stevens said. The committee had concluded that quota systems were feasible, but the minister laid emphasis on the fact that institution of quotas was a matter for legislation by the British government only.

"Another matter that should be made clear," Mr. Stevens said, "is that fixed prices would not be involved, but that wheat would merely provide Canadian wheat a sheltered market in Britain."

Asked what protection of Canadian grain might be expected to be provided for under the quota, the minister gave the opinion that 25 to 35 per cent of Canada's exportable surplus would be involved. The operation of a quota would not be responsible for the storage of grain overseas, Mr. Stevens said.

### Eckener Gives Opinion

Zeppelin Expert Is Heard At Court Of Inquiry Into Driftlight Disaster

London, England.—Dr. Hugo Eckener drew upon his knowledge as the world-famous Zeppelin expert, to reconstruct the loss of the British dirigible R-101 for the court of inquiry investigating that disaster.

He said it was undoubtedly leakage in the gas containers which sent the ship sailing a dive against a hill in France, and it was probably a break in an electrical circuit which set the craft afloat.

### Fair Dates Selected

Chicago, Ill.—Following is a partial list of Canadian fair dates selected at the meeting of the Showmen's League of America and the International Association of Fair and Exposition managers, Calgary Exhibition, Calgary, Alberta, July 6 to 11; Canadian National Exhibition, Toronto, August 28, September 12; Edmonton Exhibition, Edmonton, Alberta, July 13 to 18.

### Big Sum For Defence

Washington, D.C.—The United States will spend \$600,000,000 for national defense in the next fiscal year, if Congress adheres to the budget estimates forwarded by President Hoover.

## Local and General Items

Inspector Scott, of the A. P. Police, was up from Lethbridge last week end.

The official opening of the new covered rink at Kimberley will take place on Monday night next, with a big fancy dress carnival.

If the prohibition "element" would turn their attention to cosmetics for a while, the male portion of civilization would easily become wiser.

Newfoundland, had neither frost nor snow up to December 4th, and, illac troops were huddled out, ponies shooting through the ground and marigolds were being picked.

Haemolytic streptococci germs, which recently caused five post-operative deaths in an Edmonton hospital, were carried into the operating room by inefficiently sterilized linen, it is reported by a committee of bacteriologists following an inquest.

Mrs. W. K. Hyslop, of Pincher Creek, was a visitor to Blaimore on Saturday.

Charlie Connors, the Bellevue marathoner, has entered for the Calgary Herald Christmas road race.

Many a good wife has helped her husband to the top of the ladder—and then decided to hang the picture elsewhere.

**MATURITY CASES**—Wanted by trained nurse. Write for appointments to Box 55, Pincher Creek, or phone 131, Blaimore.

Mr. V. A. Bowes, assistant district passenger agent of the Canadian Pacific Railway, was a caller on The Enterprise on Friday last.

**TEA AND PANTRY SALE** will be held at the home of Mrs. Bennett, in aid of St. Luke's church, from 3 to 6 p.m., on Friday, December 12th.

The Calgary Power Company will build a \$5,000,000 plant on the Athabasca River.

Hon. Frank Stanfield was sworn in as lieutenant-governor of Nova Scotia on December 2nd.

Remember the First Aid Association dance to be held in the Moose Hall tomorrow night.

In the 1930 open season in Nova Scotia, 1400 moose and 1850 deer were killed by licensed hunters.

The local schools were subjected to a thorough inspection by the school board on Wednesday of this week.

Rev. J. W. Smith, B.D., was in Edmonton this week, attending a meeting of the provincial library board.

Fred Turnbull, editor and business manager of the Red Deer Advocate, has been elected mayor of Red Deer.

The Enterprise's annual Christmas number will appear on December 22, and will as formerly be brimful of interest.

The interest on the amount of money being spent in unemployment relief in this district wouldn't buy the cheapest luncheon.

Now that they have awnings on open cars, the next thing to do is to fill the rumble seat with dirt and plant shade trees in it.

The proposed C.P.R. schedule, to become effective January 1st, will affect but slightly the train time east and west through Blaimore.

This week we received a parcel from Mrs. M. Drumm, California, containing a dozen fully-ripe persimmons. The persimmon is a plum-like fruit of Virginia origin.

Harvey Mills, stock broker, facing charges of conspiracy in British Columbia, has been released on bail of \$35,000. He has yet to meet the authorities of Ontario.

The many friends of Mr. and Mrs. J. A. McDonald will be sorry to learn that their little five-week-old daughter passed away at noon yesterday from pneumonia.

Footstools for rounda loafers in Alberta hotels is said to be the latest addition to accommodations required by the liquor act authorities. Already in many hotels, chairs and toilets have been doubly padded.

With the glorious weather of the past week, scores of tourist cars have passed east and west through the Crow's Nest Pass. Quite a number from Saskatchewan were noticed in the lineup going west, mostly heading for California.

McMurchie has suffered the loss of considerable ivory during the week and is now entirely unable to bite off his share of this world's goods. He is therefore compelled to resort to liquid refreshments for a few weeks, and in that has our sincerest sympathy.

"I'm very tired," said the lady at the head of the supper table one Sunday evening.  
"You should not be," said her minister, who had been asked to the evening meal, "you haven't preached two sermons today."  
"No," said the lady, absent-mindedly, "but I listened to them."

Val, "I say, doctor, do you ever doctor another doctor?"

Dr. Stewart: "Oh, yes."

Val: "Well, tell me this: Does a doctor doctor a doctor the way the doctor doctor wants to be doctor, or does the doctor doing the doctoring doctor the other doctor in his own way?"

Turner Valley-Okotoks Imperials clashed with the Calgary Bronks at the Okotoks arena last night in the opening hockey game for the season. Jimmie McVey, Johnnie Dicken and Jimmie (Puffy) Kemp, former Blaimore juniors, comprised the forward line for T. V.-Okotoks, which team is aspiring for the Allan cup, as well as the Alberta championship.
